

## Marine Pipe Repair Kit Addresses Leaks at Sea

*Addressing the common problem of leaking systems at sea, the Hydrawrap Universal Kit packages all repair materials together in a rugged protective case designed for easy on-board storage. Mariners can now conveniently stow all the necessary materials needed to repair a variety of pipe sizes, fittings and configurations.*

Cincinnati, Ohio...HydraTech Engineered Products

(<http://www.hydratechllc.com>) has announced the immediate availability of its popular Marine **HydraWrap™** pipe repair system in a new convenient Kit form. The new **HydraWrap™ Universal Kit** contains all of the necessary materials needed to repair a variety of pipe sizes, fittings and configurations. Full instructions are included, as well as an easy-to-understand application video. All **HydraWrap™** materials are packaged together in a rugged protective case designed for easy on-board storage. Addressing the common problem of leaking systems at sea, a **HydraWrap™** repair saves Mariners from the costly and time-consuming chore of returning to port early.

**HydraWrap™** – which requires no hot work – is ABS approved and engineered to ASME standards. The system is chemical and corrosion resistant. Full details about the **HydraWrap™ Universal Kit** can be found on manufacturer's website (<http://www.hydratechllc.com/hydrawrapkit.html>). A **HydraWrap™** demonstration video can also be found on the manufacturer's website as well as on Youtube (<http://www.youtube.com/watch?v=hdhtrPHBmoM> ).

**HydraWrap™** is just one system in a line of pipe remediation products by HydraTech Engineered Products. The company specializes in engineered products which provide pipe remediation solutions to marine, industrial, municipal, and pipeline markets on both a national and global level. More detailed information, technical data and case studies for all HydraTech's products can be obtained by visiting the company's website (<http://www.hydratechllc.com>.)- END -
